## DETAILED ACTION

### *Election/Restrictions*

1. Newly submitted claims 7-11 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The applicant elected figures 1-4 on page 8 (October 1<sup>st</sup>, 2002). Claims 7-11 refer to a non elected species (figures 9-13).

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 7-12 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

### *Claim Rejections - 35 USC § 103*

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1 through 6 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bonutti US Patent No. 5,577,517.

Bonutti discloses the applicant's invention as claimed with the exception of stating that at least one deflector opening has a length of between about  $1 \frac{1}{2}$  to 3 D, where D is the internal diameter of the tube.

As stated in Bonutti (refer to column 7 lines 55-67), the configuration of a cutting tip (length of the deflector) is a design choice within the skill of the art. The length of the deflector

also depends on where the invention is going to be applied. The goal is to be met are that proper cutting and suction capabilities are achieved.

*Conclusion*

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
